

Spring Hollow Subdivision

Septic System Permit Process and General Information

All lots are approved for 3-BR homes.

All lots are approved for convention systems and/or 25% reduction systems.

Some lots will require a pump. See plat for building lines or call developer or Chad Rakes with the Health Department for exact location of approved systems.

Septic System Process:

- 1) Go to Forsyth County Health Department and complete application for septic system. (\$190.00, an additional \$50.00 for system with pump). Also must take approved application to Inspections when getting your house plans approved.
- 2) Make sure all corners of lot are staked and clearly marked.
- 3) Stake foot print of house.
- 4) Health Department will come and layout your system.
- 5) Once you are 1/2 to 3/4 finished with the house, ask your septic system installer to contact the Health Department to receive approval to begin installation.
- 6) Do not do any grading within the septic system area without approval from the Health Department.
